(a) Description	(b) Acquired	(c) Sold	(d) Proceeds	(e) Cost basis	(h) Gain/(loss)

(a) Description	(b) Acquired	(c) Sold	(d) Proceeds	(e) Cost basis	(h) Gain/(loss)

Net short-term gain 70.00 + net long-term sale gain 220.00 + capital gain distributions 410.00 = total capital gain 700.00. Of this, 630.00 is long-term (preferential) and 70.00 is short-term (ordinary).

Qualified Dividends and Capital Gain Tax Worksheet — Line 16

1	Taxable income (Form 1040, line 15)	59,584.00
2	Qualified dividends (Form 1040, line 3a)	705.00
3	Net long-term capital gain (Schedule D, line 16)	630.00
4	Add lines 2 and 3 (income taxed at preferential rates)	1,335.00
5	Subtract line 4 from line 1 (ordinary-rate income)	58,249.00
6	Married filing jointly 0% breakpoint	96,700.00
7	Amount taxed at 0% (line 4, since line 1 is below the breakpoint)	1,335.00
8	Amount taxed at 15%	0.00
9	Tax on line 5 (ordinary income, MFJ tax tables)	6,513.00
10	Tax on preferential income (line 7 × 0% + line 8 × 15%)	0.00
11	Total tax. Add lines 9 and 10. Enter on Form 1040, line 16	6,513.00

This worksheet computes the tax on line 16 only. Because the couple's taxable income is below the married-filing-jointly 0% breakpoint, the qualified dividends and net long-term capital gain are taxed at 0%. The remaining ordinary income is taxed using the regular tax brackets. Credits (line 19) and any other taxes (Schedule 2) are applied later on Form 1040.

Selected Form 1040 Instructions

Line 1a. Enter the total of the amounts shown in box 1 of your Form(s) W-2. If you have more than one Form W-2, add the box 1 amounts together.

Line 2a. Tax-exempt interest is not taxed but must be reported. Include exempt-interest dividends from a mutual fund here. Line 2b. Taxable interest is reported as income.

Lines 3a and 3b. Report ordinary dividends on line 3b. The portion that is qualified (eligible for the lower capital-gains rates) is shown on line 3a and is included in the line 3b total.

Line 7. Report capital gain or loss from Schedule D. Capital gain distributions from funds are included even if you did not sell anything.

Line 8 and Schedule 1. Use Schedule 1 to report additional income (such as a taxable HSA distribution) and adjustments to income (such as the HSA deduction).

Underpayment of Estimated Tax and Safe Harbor (Form 2210)

You may owe a penalty if the total of your withholding and estimated tax payments did not equal the smaller of 90% of your current-year tax or 100% of your prior-year tax (110% if your prior-year AGI exceeded $150,000). Most wage earners meet this through withholding.

If you expect to owe a balance at filing, consider increasing your withholding on Form W-4 or making quarterly estimated payments with Form 1040-ES to avoid an underpayment penalty next year. A taxable HSA distribution and the related additional taxes can create a balance due that withholding alone did not cover.

Keep copies of all W-2s, 1099s, and HSA forms (1099-SA and 5498-SA) with your return for at least three years.
