Four-Year Cost Projection (illustrative)

Costs rise about 4%% per year and gift aid about 3%%; future-year aid is re-evaluated annually and is not guaranteed.

2026-2027	\$90,500.00	\$48,000.00	\$42,500.00
2027-2028	\$94,120.00	\$49,440.00	\$44,680.00
2028-2029	\$97,884.80	\$50,923.20	\$46,961.60
2029-2030	\$101,800.19	\$52,450.90	\$49,349.30

Federal Loan Disclosure

Loan	Amount	Fixed rate	Origination fee
Direct Subsidized	\$3,500.00	5.66%	1.057%
Direct Unsubsidized	\$2,000.00	5.66%	1.057%

Interest on the unsubsidized loan accrues while in school. A standard 10-year repayment on the combined \$5,500.00 first-year loans is roughly \$60/month per year borrowed; four years of borrowing compounds this. Net disbursed is reduced by the origination fee.

Terms, Conditions & Appeals

Awards apply to 2026–2027 only and assume full-time enrollment. Report any outside scholarships; they may reduce need-based aid. Satisfactory Academic Progress is required to retain aid. To request reconsideration based on changed circumstances, file a financial-aid appeal with supporting documentation by August 1, 2026. Disbursements are applied to the student account at the start of each term; any credit balance is refunded to the student and may be taxable if it represents scholarship in excess of qualified expenses.
