Estimated tax withholding at vesting (sell-to-cover)

RSUs are taxed as ordinary income at vesting. Unless you elect otherwise, the plan sells a portion of each vesting tranche to cover withholding (illustrative combined rate 37%).

Vesting year	Shares vesting	Value vested	Est. tax withheld	Est. net shares
Year 1 (cliff, 2027)	1,000	\$90,000.00	\$33,300.00	630
Year 2 (2027-2028)	1,000	\$90,000.00	\$33,300.00	630
Year 3 (2028-2029)	1,000	\$90,000.00	\$33,300.00	630
Year 4 (2029-2030)	1,000	\$90,000.00	\$33,300.00	630

- Vesting is contingent on continued employment through each vesting date. Unvested units are forfeited on termination of employment.
- No units vest before the one-year cliff (first vesting August 2027).

- Share counts and values assume an illustrative constant price; actual amounts depend on the stock price on each vesting date. Consult your own tax advisor.
- Sell-to-cover is the default tax election; you may change it before each vesting date.
