In 2024 Veronica had ONE employer (no excess Social Security, no two-employer Additional Medicare shortfall). These are the prior-year figures as filed. Because 2024 AGI exceeded \$150,000, the 2025 safe harbor is 110% of the 2024 total tax shown on line 24.

2025 Estimated Tax — Safe Harbor & Form 2210 Worksheet

Item	Amount
2024 total tax (Form 1040, line 24)	44,000.00
Safe-harbor percentage (AGI > \$150,000)	110%
Required annual payment (safe harbor)	48,400.00
Alternative: 90% of 2025 total tax (use the smaller)	—
2025 federal income tax withheld (both W-2s)	46,200.00
2025 estimated payments made	0.00
Total 2025 timely payments toward safe harbor	46,200.00
Shortfall vs. safe harbor	2,200.00

2025 Estimated Payments Made

Quarter	Due date	Date paid	Amount
Q1	04/15/2025	—	0.00
Q2	06/16/2025	—	0.00
Q3	09/15/2025	—	0.00
Q4	01/15/2026	—	0.00
Total			0.00

Withholding is treated as paid evenly across the year. Because 2025 withholding (46,200.00) is below BOTH 110% of 2024 tax (48,400.00) and 90% of the 2025 tax, there is Form 2210 underpayment exposure; the excess Social Security credit and the late balance due do not cure earlier-quarter underpayment. The penalty itself is computed on Form 2210 at the federal short-term rate plus 3% and is separate from the balance due.

Three-Year Comparison

Line	2023	2024
Wages (Box 1)	158,000.00	172,000.00
Adjusted gross income	162,500.00	178,000.00
Taxable income	148,650.00	163,400.00
Total tax	38,900.00	44,000.00
Federal withholding	39,400.00	43,200.00
Balance due / (refund)	(500.00)	800.00

Note the trend: as income grew, withholding roughly kept pace through 2024. 2025 adds a mid-year employer change plus a large RSU vest, which is why 2025 withholding falls well behind the 2025 total tax.
