Cost Basis & Equity-Compensation Disclosure

Equity-compensation shares (RSU/ESPP) may show a cost basis that excludes compensation income already taxed on (or required to be reported with) your wages. For tax reporting, rely on the Stock Plan Supplemental and Consolidated 1099 for the adjusted (correct) tax basis. The PGLB position was acquired through RSU vesting; ESPP shares were sold in 2025 in a disqualifying disposition.
