

# Form 1040 (2024) — U.S. Individual Income Tax Return (Return Summary)

Nadia Okafor SSN XXX-XX-3187 Filing status: Single Tax year 2024 (as filed) / 2025 estimates

## Page 1 — Income & Adjusted Gross Income

| Line    | Description                                                  | Amount                  |
|---------|--------------------------------------------------------------|-------------------------|
| 1a      | Total amount from Form(s) W-2, box 1 (single employer, 2024) | \$279,000.00            |
| 1h      | Other earned income                                          | \$0.00                  |
| 2a / 2b | Tax-exempt / Taxable interest (Schedule B)                   | \$0.00 / \$1,500.00     |
| 3a / 3b | Qualified / Ordinary dividends (Schedule B)                  | \$2,500.00 / \$2,900.00 |
| 4b      | IRA distributions (taxable)                                  | \$0.00                  |
| 7       | Capital gain (Schedule D)                                    | \$7,900.00              |
| 8       | Additional income (Schedule 1, line 10)                      | \$0.00                  |
| 9       | TOTAL INCOME                                                 | \$291,300.00            |
| 10      | Adjustments to income (Schedule 1, line 25)                  | \$0.00                  |
| 11      | ADJUSTED GROSS INCOME                                        | \$291,300.00            |
| 12      | Standard deduction (single, 2024)                            | \$14,600.00             |
| 13      | Qualified business income deduction                          | \$0.00                  |
| 15      | TAXABLE INCOME                                               | \$276,300.00            |

In 2024 Nadia had ONE employer, so there was no excess Social Security and no two-employer Additional Medicare shortfall. The figures above are the prior-year return as filed; the 110% safe harbor for higher-income taxpayers is based on the 2024 total tax shown on page 2.

# Page 2 — Tax & Payments (2024, as filed)

Tax was computed on the 2024 Qualified Dividends and Capital Gain Tax Worksheet (qualified dividends \$2,500 and net long-term gain \$7,900 taxed at preferential rates). The following are the totals as filed; see the filed return for the full line-by-line worksheet.

| Line  | Description                               | Amount       |
|-------|-------------------------------------------|--------------|
| 15    | Taxable income (from page 1)              | \$276,300.00 |
| 16–22 | Tax after credits (as filed)              | —            |
| 23    | Other taxes (Schedule 2)                  | included     |
| 24    | TOTAL TAX (as filed)                      | \$62,000.00  |
| 25a   | Federal income tax withheld — Form(s) W-2 | \$60,100.00  |
| 26    | 2024 estimated tax payments               | \$0.00       |
| 33    | TOTAL PAYMENTS                            | \$60,100.00  |
| 37    | AMOUNT YOU OWED                           | \$1,900.00   |

Line 24 – line 33 = \$62,000.00 – \$60,100.00 = \$1,900.00 owed (as filed for 2024). This \$62,000 total tax is the figure that drives the 2025 110% safe harbor.

## Schedule B (2024) — Interest and Ordinary Dividends

### Part I — Interest

| Payer                                    | Amount     |
|------------------------------------------|------------|
| Lumen HYSA Online Savings                | \$1,180.00 |
| Granite CU Savings                       | \$220.00   |
| Fidelity cash sweep                      | \$100.00   |
| Line 2 / Line 4 — Total taxable interest | \$1,500.00 |

### Part II — Ordinary Dividends

| Payer                             | Ordinary   | Qualified  |
|-----------------------------------|------------|------------|
| Vanguard Total Mkt ETF (VTI)      | \$1,350.00 | \$1,350.00 |
| Schwab US Dividend ETF (SCHD)     | \$850.00   | \$850.00   |
| Microsoft Corp (MSFT)             | \$700.00   | \$300.00   |
| Line 6 — Total ordinary dividends | \$2,900.00 | \$2,500.00 |

Qualified dividends (\$2,500) flow to Form 1040 line 3a; ordinary dividends (\$2,900) to line 3b. MSFT shows \$400 nonqualified (holding-period).

# Schedule D & Form 8949 (2024) — Capital Gains

## Part II — Long-Term (Box D, basis reported to IRS)

| Description | Acquired | Sold    | Proceeds    | Basis       | Gain       |
|-------------|----------|---------|-------------|-------------|------------|
| VTI 60sh    | 03/2020  | 05/2024 | \$18,000.00 | \$13,000.00 | \$5,000.00 |
| AAPL 40sh   | 08/2019  | 11/2024 | \$9,400.00  | \$6,500.00  | \$2,900.00 |
| Totals      |          |         | \$27,400.00 | \$19,500.00 | \$7,900.00 |

Net long-term capital gain \$7,900 → Schedule D line 15 → Form 1040 line 7. No short-term transactions and no capital-loss carryover into 2025. The qualified dividends (\$2,500) and this \$7,900 long-term gain are the amounts taxed at preferential rates on the 2024 worksheet.

## 2025 Estimated Tax — Safe Harbor & Form 2210 Worksheet

Because 2024 AGI exceeded \$150,000, the prior-year safe harbor is 110% of 2024 total tax.

| Item                                     | Amount            |
|------------------------------------------|-------------------|
| 2024 total tax (Form 1040, line 24)      | \$62,000.00       |
| Safe-harbor percentage (AGI > \$150,000) | 110%              |
| Required annual payment (safe harbor)    | \$68,200.00       |
| Alternative: 90% of 2025 total tax       | (use the smaller) |
| Required per quarter ( $\times 1/4$ )    | \$17,050.00       |

### 2025 Estimated Payments Made

| Quarter                       | Due date   | Date paid                   | Amount     |
|-------------------------------|------------|-----------------------------|------------|
| Q1                            | 04/15/2025 | —                           | \$0.00     |
| Q2                            | 06/16/2025 | —                           | \$0.00     |
| Q3                            | 09/15/2025 | —                           | \$0.00     |
| Q4                            | 01/15/2026 | 01/12/2026 (IRS Direct Pay) | \$5,000.00 |
| Total 2025 estimated payments |            |                             | \$5,000.00 |

Withholding is treated as paid evenly across the year; a single late Q4 estimate generally does not cure an underpayment for earlier quarters (Form 2210).

## Three-Year Comparison & Withholding Reconciliation

| Line                   | 2022         | 2023         | 2024         |
|------------------------|--------------|--------------|--------------|
| Wages (Box 1)          | \$232,000.00 | \$255,000.00 | \$279,000.00 |
| Interest + dividends   | \$3,100.00   | \$3,800.00   | \$4,400.00   |
| Capital gain           | \$4,200.00   | \$6,100.00   | \$7,900.00   |
| Adjusted gross income  | \$239,300.00 | \$264,900.00 | \$291,300.00 |
| Taxable income         | \$226,350.00 | \$251,150.00 | \$276,300.00 |
| Total tax              | \$47,800.00  | \$54,300.00  | \$62,000.00  |
| Federal withholding    | \$48,000.00  | \$53,400.00  | \$60,100.00  |
| Balance due / (refund) | (\$200.00)   | \$900.00     | \$1,900.00   |

Note the trend: as income and equity comp grow, withholding has increasingly lagged total tax. 2025 adds a mid-year employer change, which is why withholding fell further behind.
