Wash-sale notice (NVTK). 150 shares were repurchased on 05/14/2025, within 30 days of the 04/30/2025 sale. The \$2,000.00 loss is therefore disallowed (box 1g) and added to the basis of the replacement shares; the allowable loss on this sale is \$0.

Noncovered lot (CRL). Box 1e basis is the original purchase figure, NOT reported to the IRS, and does not reflect inheritance step-up. Adjust on Form 8949 (code B) using the estate's date-of-death valuation.

Interest of \$200 is credited monthly on the Fidelis cash/bond position. The \$900 of life-insurance settlement interest is reported separately by Pacific Mutual Life, not by Fidelis.

Methodology & FAQ

Noncovered securities: those transferred due to death or gift. Brokers are not required to report adjusted basis; the basis shown may not reflect step-up. Wash sale: a loss is disallowed when substantially identical securities are bought within 30 days before/after the sale; the disallowed loss increases the basis of the replacement lot. Inherited property: treated as long-term regardless of holding period, with basis equal to date-of-death fair market value (in community-property states, the full interest steps up).
