Tax Notice — Cash Distribution Before Age 59½

A cash distribution is taxed as ordinary income in the year received. Because you are under age 59½, an additional 10% federal early-withdrawal penalty generally applies. Federal law requires 20% MANDATORY withholding on a cash distribution — but this 20% is only a prepayment, NOT your total tax. If your marginal rate exceeds 20%, you owe more at filing; Colorado income tax (4.4%) also applies; and the 10% penalty is separate from both. A DIRECT ROLLOVER avoids the 20% withholding, all income tax, and the penalty.

Withholding Illustration (rates only)

Item	Rate	Amount
Gross distribution		\$128,000.00
Mandatory federal withholding	20%	\$25,600.00
Net check paid to you		\$102,400.00
Early-withdrawal penalty (at filing)	10%	computed on your return
Colorado income tax (at filing)	4.4%	computed on your return
Additional federal tax if marginal > 20%	varies	computed on your return

The penalty, state tax, and any additional federal tax are NOT withheld — they are owed when you file. Estimate them before electing a cash distribution.
