Instructions for Recipient

Generally, distributions from pensions, annuities, profit-sharing and retirement plans (including section 457(b) plans), IRAs, insurance contracts, etc., are reported to recipients on Form 1099-R.

Qualified plans and section 403(b) plans. If your annuity starting date is after 1997, you must use the Simplified Method to figure the taxable amount if the payer did not show it in box 2a. See the Instructions for Form 1040.

Box 1. Shows the total amount you received this year. The amount may have been a direct rollover, a transfer or conversion, or you may have received it as periodic payments, nonperiodic payments, or a total distribution.

Box 2a. This part of the distribution is generally taxable. If there is no entry in this box, the payer may not have had all the facts needed to figure the taxable amount; in that case the first box in box 2b should be checked.

Box 4. Shows federal income tax withheld. Include this amount on your income tax return as tax withheld; attach Copy B to your return if box 4 shows an amount other than zero.

Box 7. Distribution codes: 7 = Normal distribution; 1 = Early distribution; 4 = Death; G = Direct rollover. The IRA/SEP/SIMPLE box is checked for a distribution from a traditional IRA, SEP, or SIMPLE IRA.

Box 9b. For a life annuity from a qualified plan or a section 403(b) plan with after-tax contributions, an amount may be shown for the employee's total investment in the contract; it is used to figure the taxable part of the distribution.

Boxes 14-19. If state or local income tax was withheld, these boxes show the part of the distribution subject to state and/or local tax and the tax withheld.
