Required Minimum Distributions and Age Milestones

You were age 57 at the end of 2025. Distributions taken before age 59½ are generally considered early distributions and may be subject to a 10% additional tax in addition to ordinary income tax, unless an exception applies.

Required minimum distributions (RMDs) from a traditional IRA generally begin at age 73. You are not yet subject to RMDs.

The 'Rule of 55' that permits penalty-free withdrawals from an employer plan after separation from service at age 55 or older does NOT apply to IRAs. It applies only to distributions from the employer's qualified plan after separating from that employer.

Important Disclosures

Meridian Trust Retirement Services acts as custodian of your individual retirement account. Investments in your IRA are not insured by the FDIC, are not deposits or obligations of, or guaranteed by, any bank, and are subject to investment risk, including possible loss of principal.
