Amortization Notice

Early in a loan, more of each payment goes to interest; over time, more goes to principal. Making extra principal payments reduces total interest and shortens the term. Contact us before sending extra funds to ensure they are applied to principal.

Important Disclosures

Late payments may result in a late fee and may be reported to credit bureaus. See your retail installment contract for details.

Payoff Quotes

A payoff quote may differ from the principal balance shown because it includes interest accrued to the payoff date. Request a payoff quote by phone or through the online portal.

Insurance

You are required to maintain physical-damage insurance on the financed vehicle. Lapses may result in lender-placed coverage at your expense.

Autopay Enrollment

You are enrolled in automatic payments from checking account XXXXXX2231. Payments are drawn on the due date.

To change or cancel autopay, contact us at least 3 business days before the due date. You remain responsible for ensuring sufficient funds are available.

Total Cost of Credit

Your loan is a fixed-rate, simple-interest retail installment contract. Interest accrues daily on the unpaid principal; paying earlier in the cycle reduces interest.

Making one extra payment per year, applied to principal, can shorten your term and reduce total interest paid over the life of the loan.
