

# Ironbound Regional 403(b) Plan

Quarterly Participant Statement • Recordkeeper: Vanguard Retirement Plan Services • vanguard-rps.example

## Participant Statement — Q1 2026 (Jan 1 – Mar 31, 2026)

Ngozi Balogun

218 Lafayette St, Apt 4B

Newark, NJ 07105

|                            |                                |                        |                       |
|----------------------------|--------------------------------|------------------------|-----------------------|
| PLAN                       | Ironbound Regional 403(b) Plan | ACCOUNT                | ****8855              |
| STATEMENT PERIOD           | Jan 1 – Mar 31, 2026           | AS OF                  | 2026-03-31            |
| VESTED BALANCE             | \$24,000.77                    | YOUR CONTRIBUTIONS YTD | \$1,267.20            |
| EMPLOYER CONTRIBUTIONS YTD | \$633.60                       | VESTING (employer)     | 100% (3-yr cliff met) |

## Your Account Summary This Period

| Description                                    | Amount      |
|------------------------------------------------|-------------|
| Beginning balance (Jan 1, 2026)                | \$21,500.00 |
| Your contributions (elective deferral, Code E) | \$1,267.20  |
| Employer matching contributions                | \$633.60    |
| Change in value (gains/losses & income)        | \$599.97    |
| Ending balance (Mar 31, 2026)                  | \$24,000.77 |

Your account balance reflects contributions made by payroll deduction and your investment results. Investing involves risk, including possible loss of principal.

## Your Investments (Holdings)

| Fund                                    | Shares  | Price    | Value       | % of account |
|-----------------------------------------|---------|----------|-------------|--------------|
| Vanguard Target Retirement 2055 (VFFVX) | 271.483 | \$52.31  | \$14,201.28 | 59.2%        |
| Fidelity 500 Index (FXAIX)              | 33.115  | \$190.25 | \$6,300.13  | 26.2%        |
| Vanguard Total Bond Mkt Index (VBTLX)   | 214.500 | \$9.79   | \$2,099.96  | 8.7%         |

| Fund                                  | Shares   | Price  | Value       | % of account |
|---------------------------------------|----------|--------|-------------|--------------|
| Vanguard Federal Money Market (VMFXX) | 1399.400 | \$1.00 | \$1,399.40  | 5.8%         |
| TOTAL                                 |          |        | \$24,000.77 | 100.0%       |

Share prices are as of the statement date. Values may not sum exactly due to rounding.

## Asset Allocation

| Asset class                 | Value       | % of account |
|-----------------------------|-------------|--------------|
| U.S. equity                 | \$6,300.13  | 26.2%        |
| Target-date blended (VFFVX) | \$14,201.28 | 59.2%        |
| U.S. bonds                  | \$2,099.96  | 8.7%         |
| Cash / money market         | \$1,399.40  | 5.8%         |

A target-date fund holds a diversified mix of stocks and bonds that becomes more conservative as the target year approaches. Your allocation reflects your fund choices; review it periodically to ensure it fits your goals and time horizon.

## Contribution Detail (Year to Date 2026)

| Source                                  | Rate        | Amount YTD |
|-----------------------------------------|-------------|------------|
| Your elective deferral (403(b), Code E) | 6.0% of pay | \$1,267.20 |
| Employer matching contribution          | 3.0% of pay | \$633.60   |
| Total contributions YTD                 |             | \$1,900.80 |

Contributions are remitted by your employer each pay period and invested per your elections. Annual contributions are subject to IRS limits.

## Activity Detail This Period

| Date       | Type         | Detail                            | Amount   |
|------------|--------------|-----------------------------------|----------|
| 2026-01-05 | Contribution | Payroll deferral + employer match | \$316.80 |
| 2026-01-20 | Contribution | Payroll deferral + employer match | \$316.80 |
| 2026-02-05 | Contribution | Payroll deferral + employer match | \$316.80 |

| Date       | Type                   | Detail                            | Amount     |
|------------|------------------------|-----------------------------------|------------|
| 2026-02-20 | Contribution           | Payroll deferral + employer match | \$316.80   |
| 2026-03-05 | Contribution           | Payroll deferral + employer match | \$316.80   |
| 2026-03-20 | Contribution           | Payroll deferral + employer match | \$316.80   |
| Quarter    | Change in market value | Net investment gain/loss          | \$599.97   |
| TOTAL      | Net change             | Contributions + change in value   | \$2,500.77 |

Each contribution combines your elective deferral and the employer match for the pay date. Beginning balance plus net change equals your ending balance.

## Performance Summary

|                               |              |                                |              |
|-------------------------------|--------------|--------------------------------|--------------|
| PERSONAL RATE OF RETURN (QTD) | <b>+2.4%</b> | PERSONAL RATE OF RETURN (1 YR) | <b>+9.1%</b> |
| SINCE ENROLLMENT (annualized) | <b>+7.3%</b> | BENCHMARK (60/40, 1 YR)        | <b>+8.6%</b> |

Personal rate of return reflects your actual cash flows and is net of fund expenses. Past performance does not guarantee future results.

## Fund Information

**Vanguard Target Retirement 2055 (VFFVX)** — A single diversified fund of stock and bond index funds, designed for an investor planning to retire around 2055. Becomes more conservative over time. *Expense ratio: 0.08%.*

**Fidelity 500 Index (FXAIX)** — Seeks to track the S&P; 500 Index of large U.S. companies. Broad U.S. large-cap equity exposure at very low cost. *Expense ratio: 0.015%.*

**Vanguard Total Bond Market Index (VBTLX)** — Seeks to track a broad U.S. investment-grade bond index, providing income and diversification from stocks. *Expense ratio: 0.05%.*

**Vanguard Federal Money Market (VMFXX)** — Seeks current income and stability of principal by investing in short-term U.S. government securities. Used for capital preservation. *Expense ratio: 0.11%.*

## Plan Provisions Summary

|                |                                |                    |                                       |
|----------------|--------------------------------|--------------------|---------------------------------------|
| ELIGIBILITY    | <b>Upon hire for deferrals</b> | EMPLOYEE DEFERRALS | <b>Pre-tax (and Roth, if elected)</b> |
| EMPLOYER MATCH | <b>3% of eligible pay</b>      | VESTING (match)    | <b>3-year cliff</b>                   |

| LOANS                    | Permitted, per plan rules | HARDSHIP WITHDRAWALS | Permitted, per plan rules     |
|--------------------------|---------------------------|----------------------|-------------------------------|
| IN-SERVICE DISTRIBUTIONS | Age 59½                   | RMDs                 | Begin per IRS age requirement |

## Market and Economic Review

Diversified portfolios generally posted modest gains over the quarter as equity markets advanced and bond yields fluctuated. Stocks benefited from resilient corporate earnings, while fixed income returns reflected changes in interest-rate expectations. International markets were mixed. As always, short-term market movements are normal, and a long-term, diversified approach remains the foundation of retirement investing.

It is normal for account balances to rise and fall with the markets. Reacting to short-term volatility by frequently changing investments can reduce long-term returns. Continuing to contribute steadily through different market conditions allows you to buy more shares when prices are lower, a benefit of regular payroll investing.

## Fund Fact Sheets (Detail)

**Vanguard Target Retirement 2055 (VFFVX).** Objective: long-term growth and, later, income, for investors planning to retire near 2055. Strategy: a diversified mix of Vanguard stock and bond index funds that gradually shifts toward bonds over time. Principal risks: stock and bond market risk, interest-rate risk, international risk. Average annual returns (illustrative): 1-yr +10.2%, 5-yr +8.4%, 10-yr +8.0%. Expense ratio 0.08%.

**Fidelity 500 Index (FXAIX).** Objective: track the total return of the S&P; 500 Index. Strategy: hold the index's large-capitalization U.S. stocks in approximately their index weights. Principal risks: stock market risk, concentration in large-cap U.S. companies. Average annual returns (illustrative): 1-yr +12.0%, 5-yr +11.3%, 10-yr +11.0%. Expense ratio 0.015%.

**Vanguard Total Bond Market Index (VBTLX).** Objective: track a broad, investment-grade U.S. bond index. Strategy: hold a diversified sample of U.S. Treasury, agency, mortgage-backed, and corporate bonds. Principal risks: interest-rate risk, credit risk, income risk. Average annual returns (illustrative): 1-yr +2.1%, 5-yr +0.9%, 10-yr +1.6%. Expense ratio 0.05%.

**Vanguard Federal Money Market (VMFXX).** Objective: current income while maintaining liquidity and a stable share price. Strategy: invest in short-term U.S. government securities. Principal risks: income risk; not a deposit and not guaranteed. 7-day yield (illustrative): 4.9%. Expense ratio 0.11%.

Returns are illustrative for education and are not a guarantee of future results. Read each fund's prospectus before investing; prospectuses are available through the participant portal.

## Are You On Track? Retirement Readiness

Estimating your future needs can help you decide how much to save. A common guideline is to aim to replace a large portion of your pre-retirement income from a combination of retirement savings and Social Security. Online calculators in the participant portal can project your estimated balance and monthly retirement income based on your current balance, contribution rate, and assumed returns.

| If you save...                 | Hypothetical balance in 20 years* | Hypothetical monthly income** |
|--------------------------------|-----------------------------------|-------------------------------|
| 6% of pay (current) + 3% match | about \$180,000                   | about \$750                   |
| 8% of pay + 3% match           | about \$215,000                   | about \$900                   |
| 10% of pay + 3% match          | about \$250,000                   | about \$1,050                 |

\*Hypothetical, assuming a 6% average annual return and steady pay; for illustration only. \*\*Assuming a conservative withdrawal approach. Your results will vary. This is not a projection of any particular fund's performance and not individualized advice.

## Ways to Save More

Even small increases in your contribution rate can make a large difference over time because of compounding. Consider increasing your deferral by one percentage point each year or whenever you receive a raise. If your plan offers an automatic-increase feature, you can schedule annual increases in advance. If you are age 50 or older, you may be eligible to make additional catch-up contributions above the standard limit.

## Pre-Tax vs. Roth Contributions

If your plan offers a Roth option, you can choose pre-tax contributions, Roth (after-tax) contributions, or both. Pre-tax contributions lower your taxable income now, and withdrawals are taxed later. Roth contributions are made with after-tax dollars, and qualified withdrawals are tax-free. The right choice depends on your current and expected future tax situation; consider consulting a tax advisor.

## Plan Loans (If Permitted)

If the plan permits loans, you may generally borrow a portion of your vested balance, subject to IRS limits, and repay through payroll deduction with interest paid back to your own account. An unpaid loan may be treated as a taxable distribution. Taking a loan reduces the amount invested for your retirement; consider it carefully.

## Important Investment Disclosures

Prospectuses for the plan's investment options are available at no cost through the participant portal or by calling participant services; read them carefully before investing. The plan's fiduciaries select and monitor the investment lineup but do not provide individualized investment advice through this statement.

Proxy voting for fund shares is handled by the funds' managers in accordance with their policies. Account values are based on closing prices as of the statement date and may differ from intraday values. If you believe there is an error on your statement, contact participant services promptly.

Account Balance History

| Quarter | Beginning   | Contributions | Change in value | Ending      |
|---------|-------------|---------------|-----------------|-------------|
| Q2 2025 | \$16,000.00 | \$1,900.80    | \$520.00        | \$18,420.80 |
| Q3 2025 | \$18,420.80 | \$1,900.80    | -\$380.00       | \$19,941.60 |
| Q4 2025 | \$19,941.60 | \$1,900.80    | -\$342.40       | \$21,500.00 |
| Q1 2026 | \$21,500.00 | \$1,900.80    | \$599.97        | \$24,000.77 |

Balances fluctuate with the markets and with your contributions. Figures for prior quarters are approximate and provided for context.

Investment Price History (This Period)

| Fund  | Beginning price | Ending price | Period change |
|-------|-----------------|--------------|---------------|
| VFFVX | \$51.02         | \$52.31      | +2.5%         |
| FXAIX | \$186.40        | \$190.25     | +2.1%         |
| VBTLX | \$9.86          | \$9.79       | -0.7%         |
| VMFXX | \$1.00          | \$1.00       | 0.0%          |

Prices shown are period beginning and ending values used to compute your account value.

Tax Information for Retirement Accounts

Pre-tax 403(b) contributions and their earnings are not taxed until you withdraw them, generally in retirement, when they are taxed as ordinary income. Your contributions appear on your Form W-2 in box 12 with code E and are already excluded from your federal taxable wages in box 1.

Because contributions reduce your current federal taxable income, increasing your contribution rate can lower your federal taxes now while you save for retirement (state treatment may differ). Withdrawals before age 59½ may be subject to a 10% additional tax unless an exception applies. This is general information, not tax advice.

## Rolling Money Into the Plan

If the plan permits, you may be able to roll over eligible balances from a former employer's plan or an IRA into this 403(b) to consolidate your retirement savings in one place. Consolidation can simplify management and may reduce fees, but compare investment options and costs first. Contact participant services to start a rollover-in.

## Your Rights as a Participant

As a participant you have the right to receive information about the plan and its investments, to direct the investment of your account among the available options, to name and update beneficiaries, and to receive your vested benefit according to the plan's terms. You also have the right to a clear explanation of fees and to a prudent process for selecting and monitoring investments by the plan's fiduciaries.

Keep your contact information and beneficiary designations current, review your statements, and reach out with questions. Retain your statements with your financial records.

## Understanding Your Statement

The **Account Summary** shows how your balance changed this period from contributions and investment results. **Your Investments** lists each fund you hold with its shares, price, and value. **Asset Allocation** shows your mix across asset classes. **Contribution Detail** and **Activity Detail** show money added and how it was invested. **Performance** shows your personal rate of return. Review each section and contact participant services with any questions.

## Important Plan and Investment Disclosures

**Not insured / may lose value.** Investments held in your 403(b) account are NOT deposits, are NOT insured by the NCUA or FDIC, are NOT guaranteed by any financial institution, and are subject to investment risks, including the possible loss of principal. Past performance does not guarantee future results.

**Plan governs.** Your benefits are governed by the official plan document and, where applicable, the Internal Revenue Code section 403(b) rules. If there is any conflict between this statement and the plan document, the plan document controls. This statement is for informational purposes.

**Contributions and limits.** Elective deferrals are subject to annual IRS limits. Contributions are made by payroll reduction and, where offered, matched by your employer according to the plan's matching formula and vesting schedule. Excess deferrals must be corrected within the time limits set by the Code.

**Fees (404a-5 style).** Your account bears investment expenses (expense ratios) charged by each fund and may bear plan administrative and individual service fees. The fund expense ratios and any plan fees are shown in the plan's fee disclosure and reduce your investment returns.

**Distributions and loans.** Distributions before age 59½ may be subject to ordinary income tax and a 10% additional tax unless an exception applies. Required minimum distributions generally begin at the age set by law. Loans and hardship withdrawals, if permitted by the plan, have specific rules and tax consequences.

**Rollovers and beneficiaries.** You may be eligible to roll over eligible distributions to another qualified plan or IRA to defer taxes. Keep your beneficiary designation current; it determines who receives your account on your death, generally regardless of your will.

## Fee Disclosure (Annual, 404a-5 Style)

| Fee type                                       | How charged                 | Amount                             |
|------------------------------------------------|-----------------------------|------------------------------------|
| Investment expenses (fund expense ratios)      | Deducted from fund returns  | 0.015%–0.11% per fund              |
| Plan administrative/recordkeeping fee          | Pro-rata or per-participant | Up to \$35/year                    |
| Individual service fees (loans, distributions) | When you use the service    | Loan setup \$50; distribution \$25 |

Fees and expenses reduce your investment returns over time. The cumulative effect of even small differences in expenses can be significant over many years. See the plan's full fee disclosure for details.

## Vesting Schedule

| Years of service | Vested % of employer contributions |
|------------------|------------------------------------|
| Less than 1 year | 0%                                 |
| 1 year           | 0%                                 |
| 2 years          | 0%                                 |
| 3 years or more  | 100% (cliff)                       |

Your own contributions and their earnings are always 100% vested. You have met the 3-year cliff and are 100% vested in employer contributions.

## Distributions, Rollovers, and Required Minimum Distributions

Distributions are generally available at separation from service, age 59½, disability, death, or financial hardship as permitted by the plan. Distributions of pre-tax amounts are taxed as ordinary income, and amounts taken before age 59½ may be subject to a 10% additional tax unless an exception applies.

You may be able to roll over an eligible distribution to another employer plan or an IRA to continue tax deferral. Required minimum distributions generally must begin at the age set by law; failing to take an RMD can result in an excise tax. Consult a tax advisor before taking a distribution or rollover.

## Beneficiary Designation

Your beneficiary designation determines who receives your account if you die and generally takes precedence over your will. Review and update your beneficiaries after major life events such as marriage, divorce, or the birth of a child. You can update beneficiaries through the participant portal. Spousal-consent rules may apply.

## Electronic Records and Signatures (E-SIGN) Consent

**Scope.** By enrolling in electronic delivery you consent to receive statements, disclosures, notices, tax forms, and other communications from Vanguard Retirement Plan Services electronically, through the participant portal at [vanguard-rps.example](#) or by email, instead of on paper.

**Hardware and software.** To access and retain electronic records you need a current web browser, internet access, a valid email address, and the ability to view and save PDF documents. Standard message and data rates may apply.

**Withdrawing consent.** You may withdraw your consent to electronic delivery at any time and request paper copies by contacting us; a per-item fee may apply for paper copies as shown in the Schedule of Fees and Charges. Withdrawing consent will not affect the legal validity of records provided electronically before withdrawal.

**Keeping records current.** You agree to keep your email address and contact information current so that we can deliver electronic records to you. We are not responsible for non-delivery caused by an out-of-date address.

**Retention.** Electronic records remain available for at least the period required by law and generally for the most recent statement periods through online banking; you should download and retain copies for your records.

## Market Index Reference (Trailing Returns, Illustrative)

| Index                            | QTD   | 1-Year | 5-Year (ann.) |
|----------------------------------|-------|--------|---------------|
| S&P; 500 (U.S. large-cap stocks) | +2.1% | +12.0% | +11.3%        |

| Index                            | QTD   | 1-Year | 5-Year (ann.) |
|----------------------------------|-------|--------|---------------|
| Bloomberg U.S. Aggregate Bond    | -0.6% | +2.1%  | +0.9%         |
| MSCI EAFE (international stocks) | +1.4% | +8.2%  | +6.7%         |
| U.S. 3-Month Treasury (cash)     | +1.1% | +4.9%  | +2.4%         |
| 60/40 blended benchmark          | +1.2% | +8.6%  | +7.6%         |

Index returns are illustrative, do not reflect fees, and cannot be invested in directly. Provided for educational context only.

## Saving for More Than One Goal

Your 403(b) is for retirement, but you may also be working toward other goals, such as building an emergency fund or paying down debt. A common approach is to contribute at least enough to capture any employer match (which is essentially additional pay), maintain a starter emergency fund, and then balance additional retirement saving against higher-interest debt. Retirement and short-term goals can progress together with a consistent plan.

## Avoiding Common Retirement-Saving Mistakes

A few habits help most participants: contribute enough to receive the full employer match; avoid cashing out your balance when you change jobs (which can trigger taxes and penalties and lose years of growth); resist reacting to short-term market swings; keep your investment mix diversified and appropriate for your time horizon; and review your contribution rate and beneficiaries at least once a year. Small, steady steps compound over a career.

## Updating Your Beneficiary

To add or change a beneficiary, log in to the participant portal, select Beneficiaries, and follow the prompts; you can name primary and contingent beneficiaries and specify percentages. If you are married, spousal consent may be required to name someone other than your spouse as primary beneficiary. Keep your designations current after major life events. Your beneficiary designation generally controls who receives your account, regardless of your will.

## Glossary of Retirement Terms

| Term              | Definition                                                                                    |
|-------------------|-----------------------------------------------------------------------------------------------|
| 403(b)            | A tax-advantaged retirement plan for employees of certain nonprofit and public organizations. |
| Elective deferral | A pre-tax or Roth contribution you choose to make from your pay.                              |

| Term                    | Definition                                                                             |
|-------------------------|----------------------------------------------------------------------------------------|
| Employer match          | Employer contributions tied to your own contributions, subject to vesting.             |
| Vesting                 | Your ownership of employer contributions, which may require a service period.          |
| Diversification         | Spreading investments across asset classes to manage risk.                             |
| Expense ratio           | A fund's annual cost as a percentage of assets, deducted from returns.                 |
| Target-date fund        | A diversified fund that grows more conservative as a target year nears.                |
| Compounding             | Earning returns on both your contributions and prior earnings over time.               |
| Rollover                | Moving retirement funds to another plan or IRA to keep tax deferral.                   |
| RMD                     | Required minimum distribution; the minimum withdrawal required beginning at a set age. |
| Personal rate of return | Your account return reflecting your actual cash flows.                                 |
| Catch-up contribution   | An additional amount those age 50+ may contribute above the standard limit.            |

## Understanding Risk and Diversification

All investing involves risk. Stocks have historically offered higher long-term growth but with larger short-term ups and downs; bonds typically offer steadier but lower returns; cash preserves value but may not keep pace with inflation. Diversifying across these asset classes can reduce the impact of any single market on your account.

Your time horizon matters. With many years until retirement, a portfolio weighted toward stocks has historically had time to recover from downturns. As retirement approaches, gradually shifting toward more conservative investments can help protect what you have saved. Target-date funds do this automatically based on a chosen retirement year.

Review your mix periodically and after major life changes. Avoid trying to time the market; consistent contributions and an appropriate, diversified allocation are the foundation of long-term investing.

## Making Changes to Your Account

| To...                         | Do this                                                          |
|-------------------------------|------------------------------------------------------------------|
| Change your contribution rate | Submit a salary-reduction change via your employer or the portal |
| Change your investments       | Update elections or rebalance in the participant portal          |

| To...                        | Do this                                               |
|------------------------------|-------------------------------------------------------|
| Update beneficiaries         | Use the Beneficiaries section of the portal           |
| Request a loan or withdrawal | Apply through the portal or call participant services |
| Roll money into the plan     | Contact participant services to start a rollover-in   |
| Get retirement projections   | Use the calculators in the participant portal         |

Most changes can be made online; some require employer processing and take effect within one or two pay cycles.

## Resources and Education

The participant portal offers educational articles, calculators, and tools to help you set a contribution rate, choose investments appropriate for your goals, and project your retirement readiness. Participant services representatives can answer questions about your account and the plan's features, though they do not provide individualized investment advice. For personal financial or tax advice, consider consulting a qualified professional.

Take advantage of free educational webinars and one-on-one sessions offered periodically through your employer's benefits team. Building your knowledge over time helps you make confident decisions about your retirement savings.

## Plan Loan and Hardship Withdrawal Rules (If Permitted)

**Loans.** If the plan permits, you may borrow up to the lesser of 50% of your vested balance or the IRS dollar limit, with a minimum loan amount set by the plan. Loans are repaid through payroll deduction, generally within five years (longer for a primary-residence loan), with interest paid back into your own account. If you fail to repay as required, the outstanding balance may be treated as a taxable distribution and, if you are under 59½, subject to an additional tax.

**Hardship withdrawals.** If the plan permits and you have an immediate and heavy financial need that cannot be met another way, you may qualify for a hardship withdrawal of certain amounts. Hardship withdrawals are taxable, may be subject to the additional tax if you are under 59½, and permanently reduce your retirement savings. Consider all other options first.

Both loans and withdrawals reduce the amount invested for your future. Speak with participant services and consider the long-term impact before taking either.

## Quarterly Plan Notice

This statement and the accompanying disclosures are provided to keep you informed about your account, the plan's investment options, and applicable fees. There were no material changes to the plan's investment lineup or fee structure during this quarter. Any future changes will be communicated in advance as required.

Please review your account regularly, keep your beneficiary and contact information current, and reach out with questions. Saving consistently and investing appropriately for your time horizon are the most reliable ways to build retirement security over time.

**Inflation and the Importance of Growth**

Over long periods, inflation erodes the purchasing power of money. An investment that only preserves principal may not keep pace with rising prices, while a diversified portfolio that includes growth assets has historically helped savings outpace inflation over time. This is one reason a long-term retirement account typically includes a meaningful allocation to stocks, especially for investors with many years until retirement.

Contributing consistently and reinvesting earnings allows compounding to work in your favor: your earnings generate their own earnings over the years. Even modest, regular contributions can grow substantially over a full career.

**Tax Withholding on Distributions**

When you take a distribution from a pre-tax retirement account, it is generally taxable as ordinary income in the year received. Eligible rollover distributions paid to you (not directly rolled over) are generally subject to mandatory federal income tax withholding of 20%; you may also owe an additional 10% tax if you are under age 59½ and no exception applies. A direct rollover to another plan or IRA avoids current tax and withholding.

Before taking any distribution, review the special tax notice provided by the plan, which explains your rollover options and the tax consequences, and consider speaking with a tax advisor.

**Statement Inserts and Where to Find More Information**

This statement package includes your account summary and holdings; contribution and activity detail; performance; fund information and fact sheets; plan provisions; fee disclosure; vesting; distribution, rollover, and RMD information; beneficiary guidance; investment and risk education; and required investment disclosures. For complete information, consult the plan's Summary Plan Description, the full fee disclosure, and each fund's prospectus, all available through the participant portal or from your employer's benefits team.

| Special tax notice           | Provided with any distribution request |
| Beneficiary form             | Participant portal — Beneficiaries     |

## Frequently Asked Questions

### Q. How do I change my contribution rate?

Submit a salary-reduction change through your employer or the participant portal. Increasing your rate, especially to capture the full match, can meaningfully grow your savings.

### Q. What happens to my account if I leave my job?

You can generally leave it in the plan (subject to minimums), roll it to a new employer's plan or an IRA, or take a distribution (which may be taxable). Compare options before deciding.

### Q. Am I fully vested?

Your own contributions are always vested. You have met the plan's 3-year cliff, so employer contributions are 100% vested.

### Q. How are my contributions invested?

Per your investment elections. If you have not made elections, contributions may be directed to the plan's default investment, typically an age-appropriate target-date fund.

### Q. Where can I see fees?

Fund expense ratios and any plan and individual service fees are summarized in the fee disclosure section and detailed in the plan's full disclosure documents.

## Glossary of Terms

| Term                          | Definition                                                                                                                    |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| Annual Percentage Rate (APR)  | The yearly cost of credit expressed as a percentage, used for loans and credit cards.                                         |
| Annual Percentage Yield (APY) | The total amount of dividends or interest earned on a deposit in one year, expressed as a percentage, reflecting compounding. |

| Term                    | Definition                                                                                                |
|-------------------------|-----------------------------------------------------------------------------------------------------------|
| Available balance       | The amount in your account available for immediate withdrawal, after holds and pending items.             |
| Business day            | Every day except Saturdays, Sundays, and federal holidays.                                                |
| Posting date            | The date a transaction is applied to your account; it may differ from the date the transaction occurred.  |
| Preauthorized transfer  | A recurring electronic credit or debit you have authorized in advance, such as direct deposit or autopay. |
| Available credit        | On a revolving account, the credit limit minus the current balance and any pending authorizations.        |
| Elective deferral       | A pre-tax (or Roth) contribution from your pay to the plan.                                               |
| Vesting                 | Your ownership of employer contributions, which may require a period of service.                          |
| Expense ratio           | A fund's annual operating cost as a percentage of assets, deducted from returns.                          |
| Target-date fund        | A diversified fund that grows more conservative as a target retirement year approaches.                   |
| Personal rate of return | Your account's return reflecting your actual contributions and withdrawals.                               |
| RMD                     | Required minimum distribution; the minimum you must withdraw beginning at a set age.                      |
| Rollover                | Moving retirement funds to another qualified plan or IRA to maintain tax deferral.                        |
