2025 Tax Computation Worksheet (Form 1040, line 16)

Taxable income is below \$100,000, so tax is taken from the 2025 Tax Table. The bracket figures below show how the table amount is built for married filing jointly.

Taxable income (Form 1040, line 15)	\$59,700.00
10% on first \$23,850	\$2,385.00

Self-employment tax (Schedule 2, line 21)	\$8,478

Two-Year Comparison (2024 vs. 2025)

Line item	2024 (filed)	2025 (draft)
Wages (W-2, box 1)	\$30,360	\$31,200

Total income	\$72,210	\$91,200
Adjustments to income	\$2,956	\$0
Adjusted gross income	\$69,254	\$91,200
Standard deduction	\$29,200	\$31,500

Taxable income	\$32,275	\$59,700
Income tax	\$3,464	\$6,690
Self-employment tax	\$5,912	\$8,478
Total tax	\$8,876	\$14,668
Total payments	\$9,050	\$10,784
Refund / (balance due)	\$174	(\$3,884)

Farm income rose materially in 2025 on a stronger corn and soybean year, while estimated payments and withholding lagged the higher liability — driving the larger draft balance due. Year-over-year swings of this size are typical for the operation given weather and commodity-price variability.

2025 Estimated Tax Payment Record

Quarter	Due date	Date paid	Method	Amount
Q1 2025	04/15/2025	04/15/2025	EFTPS	\$2,600.00
Q2 2025	06/16/2025	06/16/2025	EFTPS	\$2,600.00
Q3 2025	09/15/2025	09/15/2025	EFTPS	\$2,600.00
Q4 2025	01/15/2026	12/30/2025	EFTPS	\$2,600.00
Total estimated payments				\$10,400.00

As a qualified farmer (two-thirds or more of gross income from farming), the household may use the special farmer estimated-tax rule. Payments above were made through EFTPS and posted to the farm operating account. The fourth installment was accelerated to December 2025.

2026 Estimated Tax Vouchers (Form 1040-ES) — draft

Voucher	Period	Due date	Suggested amount
1040-ES #1	Jan 1 – Mar 31, 2026	04/15/2026	\$3,200.00
1040-ES #2	Apr 1 – May 31, 2026	06/15/2026	\$3,200.00

Voucher	Period	Due date	Suggested amount
1040-ES #3	Jun 1 – Aug 31, 2026	09/15/2026	\$3,200.00
1040-ES #4	Sep 1 – Dec 31, 2026	01/15/2027	\$3,200.00

Income & Withholding Reconciliation Worksheet

Source document	Type	Amount	Federal w/h	State w/h
W-2 — McCracken County Public Schools	Wages	\$31,200.00	\$384.00	\$1,117.00
Schedule F — Hartwell Family Farm	Farm net profit	\$60,000.00	—	—
EFTPS estimated payments	Estimated tax	\$10,400.00	incl.	—
Totals		\$91,200.00	\$384.00	\$1,117.00

Federal income-tax withholding on the W-2 is low because the payroll system applies the married-filing-jointly standard deduction against a single modest wage and does not see the farm income. The household covers the balance through quarterly estimated payments.

Working Notes

- Schedule F net profit of \$60,000 carried from the farm books; depreciation ties to Form 4562 (\$18,500).
- All four EFTPS estimated payments posted to the operating account during 2025.
- Dependent (Caleb) is a full-time student claimed for the \$500 credit for other dependents.
- W-2 wages and withholding entered from the single McCracken County Schools form.
- Balance due to be paid with the return; not yet signed or transmitted.

Schedule 8812 — Credits for Qualifying Children and Other Dependents

1	Amount from Form 1040, line 11 (AGI)	\$91,200
4	Number of qualifying children under age 17 × \$2,000	0
6	Number of other dependents × \$500 (Caleb, age 19)	\$500
8	Add lines 4–7	\$500
9	Income threshold (married filing jointly)	\$400,000
10	Subtract line 9 from line 3 (if zero or less, -0-)	\$0
12	Credit before limitation	\$500
14	Credit for other dependents to Form 1040, line 19	\$500

Caleb is age 19 and a full-time student; he is claimed as a qualifying-relative dependent eligible for the \$500 credit for other dependents (ODC), not the child tax credit. AGI is far below the \$400,000 married-filing-jointly phaseout, so no reduction applies.

2025 Tax Table Excerpt (taxable income near the return amount)

Tax for taxable income under \$100,000 is read from the Tax Table. The married-filing-jointly column applies to this return. Amounts are the tax for income within each \$50 band.

Form 2210-F — Underpayment of Estimated Tax by Farmers (worksheet)

1	2025 total tax after credits (Form 1040, line 22 + line 23)	\$14,668
3	Multiply line 1 by 66 2/3% (0.6667) — farmer required annual payment	\$9,779
4	Withholding taxes (Form 1040, line 25d)	\$384
6	Subtract line 4 from line 1	\$14,284
7	Required annual payment (smaller of line 3 or 2/3 of prior-year tax)	\$9,779
9	Estimated tax paid plus withholding	\$10,784
10	Underpayment (line 7 less line 9; if zero or less, no penalty)	\$0

Qualified farmers are subject to a single estimated-tax installment and a 66% required-annual-payment threshold rather than 90%. Total payments of \$10,784 exceed the \$9,779 required annual payment, so no underpayment penalty applies on these draft figures.

Farm net profit and total tax track the weather- and price-driven swings typical of the operation. 2025 is a high-income year; the draft balance due reflects payments that lagged the stronger result.

Explanation of Return Amounts

Line 1a — Wages. Wages of \$31,200 are from the single Form W-2 issued by McCracken County Public Schools to Dale Hartwell for work as a school bus driver. Box 1 equals boxes 3 and 5 because the only pre-tax item is the employee health-insurance premium, which is excluded from federal wages and from social-security and Medicare wages alike.

Line 8 / Schedule 1 line 6 — Farm income. Net farm profit of \$60,000 is carried from Schedule F, line 34. Gross farm income of \$216,500 (grain, hay, cattle, program payments, crop insurance, custom hire, and miscellaneous) is reduced by \$156,500 of cash farm expenses.

Line 10 — Adjustments. This working draft reflects no adjustments to income.

Line 12 — Standard deduction. The married-filing-jointly standard deduction of \$31,500 is used; the household's deductible items (home mortgage interest, home real-estate tax, charitable gifts) are well below that amount, so itemizing would not help.

Line 13 — Qualified business income deduction. No qualified business income deduction is reflected on this working draft.

Line 16 — Tax. Income tax of \$6,690 is read from the 2025 Tax Table for married-filing-jointly taxable income of \$59,700, consistent with the tax-table excerpt included in this packet.

Line 19 — Credit for other dependents. A \$500 credit for other dependents is claimed for the Hartwells' son Caleb, a full-time college student claimed as a dependent.

Line 23 — Self-employment tax. Self-employment tax of \$8,478 is computed on Schedule SE on net farm earnings of \$55,410 (92.35% of \$60,000) at 12.4% social security plus 2.9% Medicare.

Lines 25–26 — Payments. Federal income-tax withholding from the W-2 is \$384; estimated tax payments through EFTPS total \$10,400 across four installments.

Line 31 — Other payments and refundable credits. No other payments or refundable credits are reflected on this working draft.

Line 37 — Amount owed. On the figures entered, the draft shows a balance due of \$3,884.

Glossary of Return Terms

Adjusted gross income (AGI). Total income less specific above-the-line adjustments; the starting point for the standard or itemized deduction and many phaseouts.

Standard deduction. A fixed deduction based on filing status that reduces taxable income in lieu of itemizing; \$31,500 for married filing jointly in 2025.

Self-employment tax. Social-security and Medicare tax on net earnings from self-employment, computed on Schedule SE; one-half is generally deductible as an adjustment to income.

Qualified business income (QBI) deduction. A deduction of up to 20% of qualified net business income from a qualified trade or business, including many farming activities, subject to limits.

Estimated tax. Quarterly prepayments of tax on income not subject to withholding; farmers have a special single-installment rule and a reduced required-annual-payment percentage.

Credit for other dependents (ODC). A \$500 nonrefundable credit for a dependent who is not a qualifying child for the child tax credit, such as an older student dependent.

Marginal vs. effective tax rate. The marginal rate applies to the next dollar of taxable income; the effective rate is total tax divided by total income. They are not the same number.

Cash method of accounting. Income is reported when received and expenses when paid; common for farm sole proprietorships filing Schedule F.
