Loan Terms, Security & Disclosures

This loan is evidenced by a Promissory Note and Security Agreement granting Farm Credit Mid-America a purchase-money security interest in the financed equipment, perfected by a filed UCC-1. The borrower must keep the collateral insured against loss, maintain it in good repair, and not sell or encumber it without the lender's written consent.

Interest is fixed at 6.90% per annum, computed on the unpaid principal balance. Each monthly payment is applied first to accrued interest and then to principal as shown in the amortization schedule. There is no prepayment penalty; partial prepayments are applied to principal and shorten the term.

Late payments may incur a late charge as stated in the note (typically 5% of the payment or a stated minimum). Default includes nonpayment, breach of the security agreement, or loss of the collateral; upon default the lender may accelerate the balance and repossess the equipment in accordance with applicable law.

As a borrower from a Farm Credit System institution, the customer may be eligible for patronage distributions. This statement is informational; interest paid during the year is summarized for income-tax reporting. Consult your tax adviser regarding deductibility of farm interest.

Equipment Term Loan — Truth-in-Lending, Security & Disclosures

1. Truth in Lending. The Annual Percentage Rate, finance charge, amount financed, and total of payments were disclosed at closing. This is a fixed-rate, fully amortizing loan; each scheduled payment is applied first to accrued interest and then to principal.

2. Security interest. The Lender holds a purchase-money security interest in the financed equipment and its proceeds, perfected by a filed UCC-1. The Borrower will keep the equipment free of other liens, in good repair, and at the location disclosed, and will not sell or move it out of state without consent.

3. Insurance. The Borrower will maintain physical-damage insurance on the equipment for not less than the unpaid balance, with the Lender named as loss payee. If the Borrower fails to maintain insurance, the Lender may obtain force-placed coverage and add the cost to the loan.
4. Prepayment. The Borrower may prepay in whole or in part at any time without penalty. Partial prepayments are applied to principal in inverse order of maturity and shorten the term; they do not change the monthly payment amount unless re-amortized at the Lender's option.
5. Late charges and default. A late charge applies to payments received after the grace period. Default includes nonpayment, breach of the security agreement, loss or destruction of the collateral not covered by insurance, or the Borrower's insolvency. Upon default the Lender may accelerate the balance and repossess and sell the collateral as permitted by law, applying the proceeds to the debt.
6. Patronage. As a borrower from a Farm Credit System institution, the Borrower may be eligible for patronage refunds declared by the association's board; such refunds are not guaranteed and depend on the association's earnings.
7. Financial information. The Borrower will provide annual financial statements and tax returns and will notify the Lender of any material adverse change. The Lender may review the loan and the Borrower's financial condition periodically.
8. Governing law and notices. This loan is governed by applicable federal law and the laws of the Commonwealth of Kentucky. Notices must be sent to the addresses stated in the loan documents. The Borrower should retain this statement for income-tax records.

Glossary & Borrower Reference — Equipment Loan

Annual percentage rate (APR). The yearly cost of credit expressed as a percentage, including interest and certain fees.

Principal. The amount borrowed or still owed, separate from interest.

Accrued interest. Interest that has been earned by the lender but not yet billed or paid.

Amortization. The process of paying off a debt over time through scheduled payments of principal and interest.

Collateral. Property pledged to secure a loan that the lender may claim on default.

UCC-1 financing statement. A public filing that perfects a lender's security interest in collateral.

Default. Failure to meet the loan's terms, such as missing a payment or breaching a covenant.

Maturity date. The date by which the loan must be repaid in full.

Purchase-money security interest. A lender's lien on the specific equipment its loan financed.

Finance charge. The total dollar cost of credit over the life of the loan.

Loss payee. The party (here, the lender) designated to receive insurance proceeds if the collateral is damaged or destroyed.

Prepayment. Paying more than the scheduled amount, reducing principal and total interest.
