Federal Motor-Fuel Tax Rates — Reference

Product	Federal rate (per gal)	Product notes
Undyed (clear) #2 diesel	\$0.244 (incl. \$0.001 LUST)	Sold tax-paid at retail/delivery
Gasoline	\$0.184 (incl. \$0.001 LUST)	Sold tax-paid at retail
Dyed #2 diesel	Exempt at sale	Dyed red; sold tax-free for off-road use; not for highway use
Undyed kerosene	\$0.244	Sold tax-paid at retail/delivery

Federal excise tax is imposed on clear (undyed) diesel fuel and on gasoline at the time of sale and is included in the price billed above. Dyed diesel is sold without the federal excise tax.

Dyed diesel fuel is dyed red and is sold for off-road use only; under federal and state law it is not legal for use in vehicles operated on public highways. The clear and dyed gallons delivered to the farm are tracked separately above.

Records retained for each purchase include the name and address of the seller, the date of purchase, the number of gallons, the product, and the equipment in which the fuel was used.

Fuel Use Record

This statement and the attached logs are the farm's record of motor-fuel purchases and the equipment in which the fuel was used during 2025. Clear diesel and gasoline were used in the farm's tractors, combine, sprayer, trucks, and other equipment; dyed diesel was used for the grain dryer and standby power.
