Private Mortgage Insurance — Cancellation Projection

PMI terminates automatically when the principal balance reaches 78% of the original property value of \$448,000.00 (i.e., \$349,440.00), based on the amortization schedule, and you may request cancellation once the balance reaches 80% (\$358,400.00). Your current principal balance (\$417,872.87) is above both thresholds, so PMI continues. Under the scheduled amortization, the balance is projected to reach the 78% automatic-termination point in 2034. PMI is also removed automatically at the loan's midpoint if it has not terminated earlier.

Assistance & Loss-Mitigation Options

If you are having trouble making payments

If you anticipate difficulty paying your mortgage, contact our servicing team as early as possible. Options may include a repayment plan, a temporary forbearance, a loan modification, or other alternatives depending on your circumstances and investor guidelines.

How to request assistance

Submit a complete loss-mitigation application with the requested income and hardship documentation. We will acknowledge your application and tell you whether it is complete, and what additional information is needed.

Evaluation & timelines

When we receive a complete application a reasonable time before any scheduled foreclosure milestone, we will evaluate you for all available options and notify you of the outcome within the time required by applicable rules.

Housing counseling

The U.S. Department of Housing and Urban Development (HUD) sponsors housing counseling agencies that provide free or low-cost advice. You may locate a HUD-approved counselor through HUD's website or hotline.

Foreclosure avoidance

Responding early gives you the most options. Ignoring the problem reduces the alternatives that may be available to you.

Servicing, Error Resolution & RESPA Notices

Notice of error / request for information

You may send a written notice of error or a request for information to the designated address (separate from your payment address) shown on your monthly statement. We will acknowledge within five business days and respond within the time required by RESPA.

Servicing transfers

If the servicing of your loan is transferred, you will receive notice at least 15 days before the effective date, and payments sent to the prior servicer within 60 days of the transfer will not be treated as late.

Application of payments

Payments are applied first to outstanding interest, then principal, then escrow, then fees. Partial payments may be held in suspense until a full payment is received.

Payoff statements

You may request a payoff statement; it will be provided within the time required by law and is valid through the stated good-through date.

Credit reporting

We report your account to the consumer reporting agencies. Late or missed payments may be reflected in your credit report.

Insurance & Property Requirements

Hazard insurance

You must maintain hazard (homeowner's) insurance on the property in at least the amount required by your loan documents, naming the servicer as mortgagee/loss payee. If your coverage lapses, we may obtain lender-placed insurance and add the cost to your escrow, which is often more expensive and protects only the lender's interest.

Flood insurance

If the property is in a Special Flood Hazard Area, flood insurance is required. The subject property is in Zone X (outside the SFHA) per current FEMA mapping; requirements may change if maps are revised.

Property taxes

Property taxes are paid from your escrow account. Notify us promptly if you receive a tax bill or abatement that we may not have received.

Property condition

You are responsible for maintaining the property. Material damage may affect the security for the loan and your insurance obligations.

Year-End Tax Information

The following figures are reported to you (and, where required, to the IRS) for the 2025 tax year. Consult your tax advisor regarding deductibility, which is subject to limits.

2025 YEAR-END TAX SUMMARY	
Mortgage interest received (Form 1098, Box 1)	\$27,887.55
Outstanding mortgage principal (Box 2, as of 1/1/2025)	\$423,486.44
Mortgage origination date (Box 3)	06/01/2022
Mortgage insurance premiums (Box 5)	\$1,836.00
Points (Box 6)	\$0.00
Real estate taxes disbursed from escrow	\$4,360.00
Property securing the mortgage	148 Marlborough Street, Unit 3, Boston, MA

Mortgage insurance premiums shown in Box 5 are reported for your information; their deductibility depends on current law and your circumstances. Real estate taxes paid through escrow may be deductible as an itemized deduction, subject to the applicable limit on state and local taxes. We do not provide tax advice.

Important Disclosures

How payments are applied

Payments are applied first to outstanding interest, then to principal, then to escrow, and finally to any fees. Partial payments may be held in a suspense account until a full payment is received.

Property taxes & insurance

You are responsible for ensuring property taxes and insurance remain current. The servicer disburses these from your escrow account on your behalf.

Mortgage insurance

Private mortgage insurance (PMI) is required until the loan-to-value ratio reaches the threshold set by law or investor guidelines, at which point it may be cancelled upon request or terminated automatically.

Prepayment

There is no penalty for prepaying principal. Additional principal payments reduce the interest you pay over the life of the loan.

Tax reporting

Mortgage interest of \$600 or more is reported to the IRS on Form 1098. Whether the interest is deductible, and to what extent, depends on your circumstances; consult a tax advisor.

Error resolution

If you think your statement is wrong, send a written notice of error to the address shown on the first page within the time required by law.

Frequently Asked Questions

Why did my escrow payment change?

Escrow can change when your property taxes or insurance premiums change. Each year we analyze your escrow account and adjust the monthly escrow to cover expected disbursements plus a required cushion.

Can I pay extra toward principal?

Yes. There is no prepayment penalty. Additional principal payments reduce your balance and the total interest you pay over the life of the loan. Indicate that extra funds should be applied to principal.

When is my mortgage interest reported?

Mortgage interest of \$600 or more is reported on Form 1098, included in this package and filed with the IRS for the tax year.

What is PMI and when does it end?

Private mortgage insurance protects the lender on low-down-payment loans. It terminates automatically when the principal balance reaches 78% of the original property value (\$349,440), and you may request cancellation at 80% (\$358,400). Your balance is currently above those thresholds, so PMI continues for now; see the cancellation projection for the estimated automatic-termination year.

How do I get a payoff quote?

Request a payoff statement by phone or online; it will show the amount due through a specified good-through date.

Who do I contact about an error?

Send a written notice of error to the designated correspondence address shown on your monthly statement, separate from the payment address.
