The cumulative effect of fees and expenses can substantially reduce the growth of your account. Fees are only one of several factors to consider when making investment decisions. Visit the participant portal for a glossary of investment terms and the most recent performance data.

Qualified Default Investment Alternative (QDIA) Notice

If you do not provide investment direction, contributions are invested in the age-appropriate Keystone Target Date Fund, which the plan has designated as its QDIA. The QDIA is intended to provide long-term appreciation and capital preservation through a mix of equity and fixed-income exposures that becomes more conservative as the target retirement date approaches. You may redirect your investments out of the QDIA at any time without penalty.

Summary Plan Information (Excerpt)

Eligibility & enrollment

Employees are eligible to make elective deferrals on the first of the month following date of hire. Automatic enrollment applies at a default deferral rate of 4%, with automatic annual escalation of 1% up to 10%, unless you elect otherwise.

Employer matching contribution

The employer matches 100% of the first 4% of eligible compensation you defer each pay period. Matching contributions are subject to a three-year graded vesting schedule and are deposited each pay period.

Contribution limits

Your combined pre-tax and Roth deferrals may not exceed the IRS annual limit (\$23,500 for 2025). Participants age 50 or older may make additional catch-up contributions. The plan monitors deferrals and will stop contributions that would exceed the limit.

Investment direction

You may change your investment elections and reallocate existing balances on any business day. Trades requested before market close are generally effective the same day.

Distributions

Account balances are generally distributable upon separation from service, attainment of age 59½, disability, or death. Hardship withdrawals may be available subject to plan rules. No distribution or hardship withdrawal was processed on this account during the year.

Loans

The plan permits loans up to the lesser of \$50,000 or 50% of your vested balance. No loan is outstanding on this account.

Rollovers

The plan accepts eligible rollover contributions from other qualified plans and IRAs. Rollover amounts are always 100% vested.
