7. Important Information About Your Account

How to avoid paying interest on purchases. Your account has a grace period on purchases. If you pay your statement balance in full by the payment due date each cycle, you will not pay interest on new purchases. If you do not pay the full balance, interest is charged on purchases from the date each is posted.

Payment allocation. We apply the minimum payment first to lower-APR balances. Amounts paid above the minimum are applied to the highest-APR balances first, as required by law.

Lost or stolen card. If your card is lost or stolen, or you think someone is using your account without permission, call us immediately at the number on the front of this statement.

Billing rights. If you think there is an error on your statement, write to us at the payments address within 60 days after the error appeared on your statement. You do not have to pay the amount in question while we investigate, but you are still obligated to pay the parts of your balance not in question.

Variable rates. Variable APRs are based on the Prime Rate published in a national source plus a margin; they may change when the Prime Rate changes.

Credit reporting. We may report information about your account to credit bureaus. Late payments, missed payments, or other defaults may be reflected in your credit report.

Annual statement note. This year-end statement summarizes the twelve monthly billing cycles for the period and does not replace the monthly statements previously sent.
