Schedule C — Selected Line Instructions

Line 1 — Gross receipts. Report total income from the business, including amounts shown on Forms 1099-NEC and any other business income received.

Line 9 — Car and truck expenses. If using the standard mileage rate, multiply business miles by the applicable rate. Keep a contemporaneous log substantiating business use.

Line 17 — Legal and professional. Fees for services such as accounting and legal advice that are ordinary and necessary for the business.

Line 27a — Other expenses. Itemize other ordinary and necessary business expenses not captured on a specific line, such as software, dues, and professional liability insurance.

Line 28 — Total expenses. Add the expense lines. The result is subtracted from gross income to arrive at tentative profit.

Line 31 — Net profit. Net profit flows to Schedule 1 and is generally subject to self-employment tax on Schedule SE.

Self-employment tax. Net earnings from self-employment are generally subject to Social Security and Medicare taxes; one-half of the self-employment tax is deductible in arriving at adjusted gross income.

Qualified business income. Net profit from a qualified trade or business may support a deduction under section 199A, subject to taxable-income thresholds and other limits.

Vehicle and Travel Substantiation

Item	Detail
Vehicle	2019 pickup, placed in personal service 2019
Method	Standard mileage rate
Total miles driven (all purposes)	11,400
Business miles	6,165
Business-use percentage	54.1%
Commuting miles	0 (home office is principal place of business)
Written log maintained	Yes — contemporaneous
Other vehicles available for personal use	Yes

Business mileage is substantiated by a contemporaneous log recording the date, destination, business purpose, and miles for each trip. The standard mileage rate is used; actual vehicle expenses are not separately deducted.

The home office is the principal place of business, so trips from home to client sites are deductible business miles rather than nondeductible commuting.

Supporting records — invoices, EFTPS confirmations, receipts, and the mileage log — are retained with the business books.
