How to Read Your Form W-2

Why is Box 1 lower than Box 3 and Box 5?

Box 1 excludes pre-tax elective deferrals such as 401(k) contributions, while Boxes 3 and 5 include them. The difference equals the deferral amount reported in Box 12.

Which figures do I use to prepare my federal return?

Box 1 reports federal taxable wages and Box 2 reports the federal income tax already withheld during the year.

What if I worked for more than one employer this year?

Each employer issues a separate Form W-2 covering only the wages it paid. You will receive one statement from each employer for the year.

How are state wages determined?

Box 16 reflects wages allocated to the state shown in Box 15. State income tax withheld appears in Box 17.

When are these forms issued?

Employers furnish Form W-2 to employees by January 31 following the close of the calendar year.

Glossary of Payroll and Tax Terms

Elective deferral. An amount you choose to contribute from pay to a qualified retirement plan before federal income tax is applied.

Social security wage base. The maximum amount of annual wages subject to social security tax in a given year.

Medicare wages. Compensation subject to Medicare tax; unlike social security wages, there is no annual wage base limit.

Federal income tax withheld. Amounts an employer deducts from each paycheck and remits to the federal government toward your annual income tax liability.

Pre-tax deduction. An amount removed from gross pay before certain taxes are computed, such as qualifying retirement or cafeteria-plan contributions.

Statement period. The portion of the calendar year covered by this statement, corresponding to your dates of employment with the issuer.

Control number. An internal identifier the employer uses to track the statement; it has no effect on your tax liability.

Illinois Filing Reference

Copy 2 of this statement is provided for filing with your Illinois individual income tax return. Illinois imposes income tax at a flat rate on Illinois base income, which begins with federal adjusted gross income and is adjusted by Illinois additions and subtractions.

State wages (Box 16) and Illinois income tax withheld (Box 17) are reported on the Illinois return. Retain Copy 2 with your records and attach it to your state return if required by the filing method you use.

If you were a part-year resident or earned wages in more than one state during the year, allocate income according to the instructions for the applicable state returns.
