Interest Charge Calculation

Your Annual Percentage Rate (APR) is the annual interest rate on your account.

Balance type	Annual percentage rate (APR)	Balance subject to interest rate	Interest charge
Purchases	24.99% (v)	\$3,320.84	\$69.16
Cash advances	29.99% (v)	\$0.00	\$0.00
Balance transfers	24.99% (v)	\$0.00	\$0.00

We use the daily balance method (including new purchases) to calculate interest. We apply the daily periodic rate (the APR divided by 365) to the balance each day, then sum the daily interest for the billing cycle.

Payment Information

Payment due date: July 17, 2026. Minimum payment due: \$67.68. To avoid additional interest, pay your statement balance in full by the due date.

How payments are applied. Payments up to the minimum are applied to lower-APR balances first. Any amount paid above the minimum is applied to the balance with the highest APR first, consistent with applicable law.

Automatic payments. Your account is enrolled in automatic payment of the minimum amount due from your linked checking account on the payment due date.

Your Billing Rights — Keep This Document

What to do if you find a mistake on your statement. If you think there is an error on your statement, write to us at the address shown on your statement. You must contact us within 60 days after the error appeared on your statement.

You must notify us of any potential errors in writing. You may call us, but if you do we are not required to investigate any potential errors and you may have to pay the amount in question.

While we investigate whether or not there has been an error, we cannot try to collect the amount in question or report you as delinquent on that amount. The charge in question may remain on your statement.

How to Avoid Paying Interest

Your due date is at least 25 days after the close of each billing cycle. We will not charge interest on new purchases if you pay your entire balance by the due date each month. If you do not, you will be charged interest on purchases from the date they are added to your balance.

Because a balance was carried from the prior cycle, interest was charged on purchases in this cycle. Paying the full New Balance by the due date will restore the grace period for future purchases.
