Understanding Your Earnings Statement

Gross pay

Your total earnings before any deductions. For salaried employees, this is your annualized salary divided by the number of pay periods.

Pre-tax deductions

Amounts withheld before certain taxes are computed. Medical premiums under a cafeteria plan reduce wages subject to federal income, Social Security, and Medicare taxes. 401(k) elective deferrals reduce wages subject to federal and state income tax but not Social Security and Medicare.

Tax withholding

Federal income tax is withheld based on your Form W-4 elections. Social Security and Medicare are withheld at statutory rates. Illinois income tax is withheld at the state flat rate.

Net pay

Your take-home pay after all deductions and taxes, deposited to your account on file.

Year-to-date

Cumulative totals for the calendar year through the current pay date.

Benefit Deductions & Contribution Detail

Benefit	Per pay period	Annualized (24 periods)	Tax treatment
Medical (pre-tax)	\$285.00	\$6,840.00	Pre-tax (FICA + FIT)
401(k) elective deferral	\$230.00	\$5,520.00	Pre-tax (FIT/state only)

Annualized figures are illustrative based on the current per-period amounts and a full 24-period year; actual annual totals depend on elections in effect each period.

Withholding Notes & Definitions

Social Security wage base

Social Security tax applies to wages up to an annual maximum. Once year-to-date Social Security wages reach the wage base, no further Social Security tax is withheld for the year.

Medicare

Medicare tax applies to all covered wages with no wage base limit. Additional Medicare Tax may apply to high earners and is reconciled on the individual income tax return.

Direct deposit

Net pay is deposited to the account on file. Notify payroll promptly of any change to your banking information.

Questions

Contact the payroll department for questions about your earnings statement or to update your Form W-4 or benefit elections.
